

myCADtools achieves SOLIDWORKS Certified Product status

Lyon, 24 July 2018 – Visiativ Group is listed on Euronext Growth in Paris (ISIN code: FR0004029478 – ticker: ALVIV).

Visiativ group announces the SOLIDWORKS Gold Product certification of [myCADtools](#), the highest recognition awarded by Dassault Systèmes. This certification guarantees the perfect integration, quality and interoperability of myCADtools.

Aiming CAD designers who wish to improve their productivity and efficiency while using SOLIDWORKS daily, myCADtools application helps them in their design work, organization, projects management and exchanges within their business or with their partners.

myCADtools was already certified Solution Partner, to go further and achieve this new goal, Visiativ had to undergo a multi-step process to review quality insurance and support criteria, support of the latest releases, full integration into SOLIDWORKS interface, associativity with geometric data and successful operations with referenced customers.

Laurent Fiard, Chairman and Chief Executive Officer of Visiativ, said: *“Gold certification is a guarantee of professionalism in the SOLIDWORKS community. It is an essential step in our international strategy. myCADtools is available in 5 languages (FR, EN, DE, KB, ZH) and it is already represented by a dozen SOLIDWORKS resellers.”*

Used today more than 3,500,000 time per year by more than 3,600 engineering offices, **myCADtools** is positioning itself as an indispensable complement to all SOLIDWORKS users to meet their business requirements.
